

Pole Setting—PT7000e

HD 24V Plug 'n Play Pole Tongs

FEATURES

- Twin XD *Tilt Function* linear actuator ram design rated to 275,000 cycles
- XD *Pinch Function* linear actuator rated to 275,000 cycles
- HBC Radiomatic remote controls with spare battery and charger
- 24V Energys batteries with 5 year warranty and charger
- Batteries rated to 1.5 hours of tilt and pinch functioning in 10 hour shift
- 3/4" thick steel arms built to handle 100' + transmission power poles and monopoles
- Tapered guide plates to accept a variable diameter of poles
- Optional rollers on arms to allow poles to travel easily
- Universal Interface to adapt to multiple cranes for extended, sustainable lifecycle

Pole Setting—PT7000e

HD 24V Plug 'n Play Pole Tongs

Battery-Powered Advantages:

- Avoid hydraulic fluid spills in the field
- No downtime installing hydraulic hose reels and circuits
- Saves money, weight, hose reel lift deductions and space on the crane
- Linear actuators are rated for 275,000 cycles
- Adapts to multiple cranes with universal mount for sustainable lifecycle
